ABOUT ME

Detail-oriented Front-End Developer with 3+ years of experience in building high-performance websites and web applications using React, Next.js, and modern JavaScript. Strong background in UI development, state management, API integration, and performance optimization. In addition to 5 years of experience in Flutter mobile development, I bring a cross-platform perspective and problem-solving mindset to deliver scalable, user-friendly solutions.

EXPERIENCE

Front-End Developer (Freelance)

2022 – Present

- Developed modern, responsive websites and web apps for clients across different industries.
- Built scalable front-ends using React, Next.js, and TypeScript.
- Integrated RESTful APIs and worked with CMS platforms (WordPress – customizations & theme adjustments).
- Optimized websites for performance, SEO, accessibility, and cross-browser compatibility.
- Collaborated with designers and marketers to deliver pixel-perfect, high-conversion digital experiences.

Flutter Developer (Freelance)

2019 – Present

- Built and published multiple cross-platform mobile apps using Flutter.
- Implemented state management with Provider, Bloc, and Riverpod.
- Integrated APIs, Firebase services, and payment gateways.
- Delivered high-quality apps with clean architecture and responsive UI.
